MR. EDMUNDS FAVORS THE ABOLITION

Debate on the Railroad Attorneys Bill In the Senate-Pierce Ossinught on the Piegre-Pseumonia Bill in the Rouse. WASHINGTON, Jan. 28 .- Mr. Edmunds (Rep., Vt.) presented a memorial in the Senate to-day from manufacturers and business men in Vermont for a repeal or reduction of inter-nal revenue taxes. Referred to Finance Com-

After some contine business had been disnosed of, the Sonate proceeded to the consideration of a bill to prohibit members of Congress from acting as attorneys or employees for railroad companies holding charters, or having received

companies bolding charters, or having received grants of lands or pecusiary aid from the United States.

Mr. Hoar (Rep., Mass.) said that the bill was simed at a sante of things not existing and not likely to exist. He was willing to go as far as to provide that, when a land grant railroad company had legislation before Congress, no Senstor or member who bore the relation to that company of counsel or client should take part in that legislation, and he offered an amendment to that effect.

Pending further debate the Senste adjourned. IN THE HOUSE.

The House met at 11 A. M. in continuation of yesterday's session, and the Speaker announced that the pending question was on the demand for the previous question upon the passage of the Washington Cable Railway bill. The demand was withdrawn to enable various amendments to be offered, most of which were voted down, but a few of which were adopted. The substitute as amended was then adopted and passed—yeas, 155; nays, 72.

Mr. Forney (Dem., Ala.) presented the conference report on the bill making an annual appropriation of \$400,000 for the equipment of the militia forces of the United States, and it was agreed to.

appropriation of \$400.000 for the equipment of the militia forces of the United States, and it was agreed to.

The House then went into Committee of the Whole on the Pieuro-pneumonia bill.

An ameniment was adopted increasing from \$3.000 to \$5.000 the salary of the Chief of the Bureau of Animai Industry.

A discussion then arose upon the first section of the bill, which removes the limitation upon the number of porsons which may be employed by the Commissioner in carrying out the Pieuro-pneumonia act. Finally an amendment was adopted authorizing the Commissioner to employ a force within the limits of the appropriations made by Congress, provided that no debt against the Government shall be created under the provisions of this bill.

Mr. Swinburne offered an amendment providing that the lords employed shall include three experts of scientific attainments and not less than six years actual experience in sanitary and pathological work, and especially in the investigation of contagious diseases, and to aid these experts in their investigations all necessary aid shall be rendered by the Commissioner of Agriculture. Adopted—114 to 25.

An amendment was also adopted requiring the experts to report what means should be taken to extirpate hog cholers. The committee then rose without further action and the House adjourned.

FLIGHT OF MRS. COULSTON. The Woman who Accused Paster Messares

PHILADELPHIA, Jan. 28 .- The sureties of Charles W. Coulston and his wife, Mary E. Coulston, to-day surrendered their ball piece in a suit brought by Mrs. Ziegler against the and Mr. Couiston was at once arrested and locked up, but his wife had left the city this morning, as it is said, for New York, where she

ntended taking the steamer for Europe. Mrs. Coulston had been in charge of the Fourteenth Ward Charity Society, and she Fourteenth Ward Charity Society, and she caused the arrest of Mrs. Ziegler on the charge of drunkenness, and the latter was sent to the House of Correction, her children being placed in different institutions. Mrs. Ziegler was soon released, and then brought suit for damages. Mrs. Coulston appeared, and the Superintendent and one of the members of the Charity Association went ball for her. To-day the sureties heard of her intended departure from the city, and at once surrendered their ball bond, but Mrs. Coulston had left the city. Telegrams have been sent to New York asking for her arrest, and a Central Office detective has gone there to assist in intercepting her before she takes the steamer for Europe.

Mrs. Coulston was the complainant in the charge of indecent assault recently brought sgainst the Rev. Waldo Messaros, pastor of the Northwestern Independent Church in this city, and of which charge, after a trial lasting several days, he was acquitted.

Mr. Parry, ne-sisiant stage manager, sued for \$150, two weeks' pay, and Miss Richards and Miss Hawkina, ballet sirls, sued also for two weeks' pay, \$90 each. Mr. Eugeno H. Lewia, attorney for the opers company, tharies E. Lecke, gen-eral manager, and Theodore Thomas, musical director, were all unable to be present. The matter was finally arranged hetween Mr. Badger, attorney for the plain-tiffs, and Mr. Kinsley, rejresenting Mr. Lewia, and atipulation was entered into by both parties whereby the plaintiff in each case was allowed to take an inquest, and judgment was given for the plaintiff. Ten days was given to the opera company in which to move for a trial on the merits.

NEW YORK'S LEGISLATURE.

The Bispute Over the Pay of Clerks Carried ALBANY, Jan. 28 .- After calling the Senate

to their duties, said that he had construed the words of the law: "The following compensations shall be paid for the annual session of the Legislature," in its reference to such employees, to include as "the annual session" all days from the meeting of the Legislature to its adjournment. This construction he found had been followed by his predecessors and by the speakers of the Assembly, including the present Comptroller Chapin, when he occupied the

ent Comptroller Chapin, when he occupied the Speaker's chair, and had had the tacit survey of the several Comptrollers, including the present Comptroller, and it led him to the conclusion, whether austained by a strict construction of the statute or not, that custom had made the practice a law. If that construction was wrong, it was within the power of the Legislature to remedy it, and he respectfully saked the direction of the Senate in regard thereto.

Mr. Sloane said that the Lieutenant Governor's position was fully fortified by precedent, and he moved that it was the sense of the Senate that he should continue his certification as hitherto. He said that the Judiciary Committee had been requested to examine the law bearing on the case, and that the question would doubtless go to the Courts for decision.

Mr. Pierce said that although the Democrate had taken no caucus action, as had the Republicans, they would undoubtedly sustain the Chair, He doubted whether the Comptroller sanctioned Deputy Hall's action.

Mr. Murphy thought it was time to rebuke the effrontery and interference of the Comptroller's office.

While the debate was under way the following communication was received from Deputy Comptroller Hall:

This document further provoked the Sennte, Mr. Fassett declaring that Comptroller Chapin must have known that per diem clerks do not engross bills.

Mr. Sloan's motion sustaining the Lieutenant-Governor's position was then adopted.

Bills were introduced as follows: By Mr. Smith, raising the age from 10 to 12 years in females at which there can be a conviction for rape; by Mr. Low, appropriating \$2,000 to the State Dairymen's Association to extend useful knowledge.

The fight over the location of the insane asylum in the northern part of the Btate has been carried into the Assembly, with an effort to unsast George Weed, son of Smith Weed and Assemblyman from Clinton county. A commission was appointed some time ago to select a site for the asylum, and a majority reported in laver of Plattsburgh, The three Republican Assemblymen from St. Lawrence wanted the assylum in that county, and they are trying to turn the contest between St. Lawrence and Clinton counties into a party measure, notwithstanding the Commissioner's report. George Weed was a United States Commissioner isstyear, an office that is hereditary in the Weed family, and it is claimed that he should be disqualified thereby. The petition to that effect was presented yesterday after some effort to find a Republican member to offer it. Smith Weed was a United States Commissioner and an Assemblyman, and it is an odd colonicidence that Zerubbabel Erwin was also a United States Commissioner when he was first elected to the Assembly, He resigned, but the day of the filing of the resignation was so far shead of its date that some people suspected that Zerubbabel had antedated the resignation so as to conform to the law.

German Opera, The second performance of "The Meister-

wagner's masterpiece, but few pernaps among the audience realized the mighty musical machinery that goes to its performance. So many rôles of difficulty and importance are scarcely to be found in any other work. The County Committee of the United

Jones, referring to the letter of Deputy Comptroller Hall, that he could not pay per diem clerks except for the days they were actually present and attending to their duties, said that he had construed the mittee on Constitution, of which Prof. De Leon is Chairman. Chairman McMackin presided. A roll of the districts was called, and one or

two persons not delegates were requested to leave, and did.

Mr. Campbell of the Ninth introduced a resolution, which was adopted, expressing sympathy with the striking 'longshoremen and coal heavers and condemnation of the cor-porations in whose employ the strikers were. The Sixteenth district asked permission to read a communication. It was granted. Mr.

The Sixteenth district asked permission to read a communication. It was granted. Mr. Levison was proceeding to read a lengthy document when he was interruped amid great confusion, and a motion was made and carried that the communication be not read. At this the delegates from the Sixteenth rose in a body and withdrew from the convention amid great confusion and astorm of hisses. The Sixteenth district represents 3,200 wites for Heary George. The trouble with the Sixteenth district represents 3,200 wites for Heary George. The trouble with the Sixteenth district began back in the first session, when an objection was raised to one of the delegates on the ground that he was a "scab." Pending investigation the committees were appointed and the Sixteenth district was left out. Therefusal to hear their communication was the olimax of the affront which the Sixteenth field that unjustly received, inasmuch as the investigation of the delegate in question proved his innocence of the charge made against him.

Two ladies entered the hale pending the discussion of the Sixteenth district matter. They have credentials introducing them in the name of the "Socialistic Frauenbund" as Cynthia Leonard and Mrs. A. Schlag, and requesting for them the privileges accorded to representatives of other organized bodies. The question was referred to the Committee on Credentials, which withdrew to consider.

A long and firry debate casued on the question of admitting non-citizens of the United States to membership of the party. It was agreed to admit those who have declared their intentions.

The Committee on Credentials have reported adversely to the admission of the Socialistic ladies to the convention, on the ground that they were not delegates representing any district. The ladies, however, were invited to seats on the platform. Mrs. Leonard is the mother of Lillian Russell, a

Lindley & Co.'s open trades were settling up made the feeling very weak indeed. It is not believed that the Californians sold all their wheat, and it is not believed that they could have sold if they had wanted to without a very bad break; but of the 3,000,000 to 4,000,000 busies which field, Lindley & Co. held the theory is that half was sold yesterday. Hutchinson now remains, it is believed, the largest holder in the market. Rosenfield & Co. come next, probably, for the account of Hebrew clients in New York.

It is now believed that Hutchinson is more largely interested than anybody else on the iong side of the market. The talk is, even among those who did not indulge in very wiid exaggerations, that he is long not less than 2,000,000 bushels of wheat and it is the went into that pit to-day about noon, and handing his cards around, told the crowd to put down auch sales as they chose. A peculiar feature of the Coal Exchange, that meets in rooms in the Washington Sulking, is that none of the bug producing companies is represented in its membership. FRIDAY, Jan. 28. The stock market continues within narrow limits and is still very largely a local and pro-fessional affair. To-day prices were advanced. despite a lower and flat market for American securities in London. The movement was helped materially by the operations of the bears, who are very timid, and as a rule cover upon the slightest appearance of strength. The strong features to-day were Richmond \$1,000,000 upon its purchase of East Tennessee 1st preferred stock, and this presumably was the occasion of the movement in the stock. It advanced 216 W cent., and closed at the highest price of the day. The speculation in New England was more moderate, and was under-stood to be based upon talk of extending the company's system in connection with the new Danbury road. The buying of Union Paolific and the coal stocks appeared to be largely for short secount.

and the coal stocks appeared to be largely for short account.

The volume of transactions was about the same as yesterday, but it was not as well distributed. Over two-fiths of the dealings took place in the first hour. After that the dulness was as intense as at any time this year. The firmness of the market encouraged a more confident feeling, and the speculative holders of stocks point with a good deal of encouragement to the fact that the bears lack leadership and nerve, and that the declines do not bring out much long stock. The bears still fall back apon the labor troubles and the possible operations of the Inter-State Commerce bill, but they move very cautiously. The closing was firm, with the usually softee list averaging about \$100.000 and the contractions of the contractions of the contractions.

The Seven Cuticura Boys

These seven beautiful boys owe their beauty of skin, lexuriance of heir, purity of blood, and freedom from her-ditary tains or humors to the celebrated CUTICURA REMEDIES.

Thousands of children are born into the world every day with some ecsematous affection, such as milk erust, scall head, scurf or dandruff, sure to develop into an agonizing eczema, the itching, burning, and disfigura-tion of which make life a prolonged torture unless prop-

A warm bath with CUTICURA SOAP, an exquisite Skin Beautifier, and a single application of CUTICURA, the Great Skin Cure, with a little CUTICURA RESOLV-ENT, the New Blood Purifier, is often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.

Your most valuable CUTICURA REMEDIES have done Tour most valuable CUTICURA REMEDIES have done my child so much good that I feel like saying this for the benefit of those who are troubled with skin disease. My little girl was troubled with Eczema, and I tried several doctors and medicines, but did not do her any good until I used the CUTICURA REMEDIES, which speedily cured her, for which I owe you many thanks and many nights of rest. General office, 237 South Fourth st. PHILADELPHIA, Jan. 27, 1887. TO THE HOLDERS OF SECURITIES IN THE PHILA-DELPHIA AND READING BAILBOAD COMPANY:

On the first day of March next the time expires within which the various securities can be deposited under the plan of reorganization, and in case enough have not been deposited then to warrant the Trustees in deciding to reorganize without foreclosure, the plan provides that foreclosure and cale will be had only in the interest of such as have deposited prior to that date. The Court has declared that no unnecessary delays will be permitted, and unless reorganization be premptly effected it will feel at liberty to vacate the Receivership. It is most im portant for all interests that such a contingency should be avoided. Therefore all persons who desire to particle be avoided. Therefore all persons who desire to partici-pate in this plan for the reorganization of the property should act promptly make the deposit, and pay the assess-ments, where such are required, within the time limited. I deem it my daty to say that THERE IS NO POSSI-BLE CHANCE FOR ANY OTHER PLAN THAN THIS TO SUCCEED, and that a failure to sat premptly in its adoption and deposit of securities, will result in loss to all persons failing to deposit, and the junior securities will preshably be whelly lest. will probably be whelly heet.

Our oldest child, now six years of age, when an infant six months old, was attacked with a virulent, malignant skin disease. All ordinary remedies falling, we called our family physician, who attempted to care its but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid middle of his back down to his knees, was one solid reach, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIER. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been stracked. In my opiniou, your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever recoursed.
